Other Information

Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

Job placement data was gathered from the California Community College's Career Technical Education (CTE) (Perkins IV) dashboard. Data in each year is representative of rates for a cohort of students who had left the community college system in the year prior (e.g., because they earned an award or some other reason). For example, data for FY 17/18 represents employment rates for students who left the system in spring 2017 and found employment in 17/18. Programs that did not have cohort sizes of ten students or more in the most recent year (FY 17/18) were not included here - because they did not have reliable data to be evaluated against our current/recent set standard of 73.23%. Additionally, certificates may have been undercounted slightly. In the past, our district tracked certificates at or above 18 units. Therefore, certificates in the 16-17 unit range were more difficult to identify.
